# GORDIE HOWE INTERNATIONAL BRIDGE PROJECT SEEKING FEEDBACK ON MALDEN PARK OBSERVATION AREA ACCESSIBILITY THROUGH ONLINE SURVEY

The Gordie Howe International Bridge Community Benefits Plan includes funding to build a safe observation area at Malden Park where residents and visitors can observe the construction of the Gordie Howe International Bridge. To minimize barriers for people with disabilities, the Gordie Howe International Bridge project team is seeking feedback on the design of the Malden Park Observation Area so it can be enjoyed by all through an online survey.

Feedback will be considered for integration into the final design. This survey asks participants to view preliminary designs of the observation area and to share ideas and feedback on how it can be made more accessible for the Windsor community.

### How to participate in the survey:

To take the survey online visit [gordiehoweinternationalbridge.com/community-benefits-section](http://gordiehoweinternationalbridge.com/community-benefits-section) under the “Neighbourhood Infrastructure” tab.

The survey will close August 10, 2022.

You can request the survey in an alternative format by emailing [info@wdbridge.com](mailto:info@wdbridge.com), or by phoning 1-844-322-1773.
