Big News - Request for Qualifications Issued

The Windsor-Detroit Bridge Authority has exciting news. Today, we issued the Request for Qualifications (RFQ) for the Gordie Howe International Bridge project. The RFQ is the first stage in our two-stage procurement process to select a private sector partner to design, build, finance, operate and maintain the project. The RFQ is published on MERX, the electronic tendering service, at www.merx.com.

We have worked closely with our partners in Canada and the US to achieve this milestone and look forward to receiving submissions in response to the RFQ.

Want to read more about our public-private partnership procurement process? Check out the new webpage on our website: www.wdbbridge.com/en/procurement. Here you will find links to the news release we issued today and fact sheets in addition to information about the procurement process.
