

SANDWICH STREET \$1 MILLION ENHANCEMENTS

As part of the Gordie Howe International Bridge project, just over three kilometres of Sandwich Street will be reconstructed. Sandwich Street reconstruction will stretch from south of the Rosedale Avenue roundabout past Ojibway Parkway to McKee Avenue.

Through the Community Benefits Plan, the project team is investing \$1 million to further enhance the Sandwich Business Improvement Area, in addition to the Sandwich Street reconstruction project. In February 2022, the project team collected community feedback through a survey that will help determine how the \$1 million should be prioritized. Survey respondents were asked to rank these four categories of investment areas:

HARDSCAPING: Benches, and street furniture.

(Example hardscaping concept photo.)

LANDSCAPING: Potted plants or trees, flowering shrubs, planter boxes, tall grasses or other vegetation.

(Example landscaping concept photo.)

GATHERING SPACES: Seating areas of tables and benches, alone or in clusters to allow for community interaction.

(Example gathering spaces concept photo.)

ACTIVE TRANSPORTATION: Bike racks, wayfinding signage, or bicycle repair stations.

(Example active transportation concept photo.)

NEXT STEPS

The project team is reviewing the responses to identify the areas most prioritized by the community. While the overall street design will include features from all four investment categories, additional funding will focus on those areas most important to the community.

The project team will work with the City of Windsor to ensure their approval of designs, which are anticipated to be publicly shared in summer 2022. Construction of the BIA district is anticipated for 2023.
