Good afternoon,

Here are a few things we wanted you to know about:

Earth Day

In honour of Earth Day 2023, project staff are attending the [City of Windsor's Earth Day](#) celebrations at Malden Park this Sunday. Stop by our table between 10:00 a.m. - 3:00 p.m., grab an activity bag for your child and learn more about the multi-use path on the Gordie Howe International Bridge.

New Flyover Footage

We've captured new footage of the Canadian and US bridge sites. Take a look at the progress in our latest videos below. Be sure to check back next week for more videos on our [YouTube](#) channel of other project components.

Noise Walls Under Construction

The Gordie Howe International Bridge project team is constructing noise walls along three sections of southbound I-75 to help mitigate highway noise for nearby residents. The noise walls are being built between I-75 and the service drives on state-owned land and will not affect sidewalks on the service drives. Learn more about the locations, criteria, aesthetics, construction schedule, and what to expect during construction [here](#).
