Good afternoon,

Here are a few things we wanted you to know about:

Public Information Meetings

Join us for Gordie Howe International Bridge Public Information Meetings. We will be at Mackenzie Hall in Windsor on June 20, 2023, and at El Kiosko Banquet Hall in Detroit on June 21, 2023. Hear the latest updates on Community Benefits and construction progress on Canadian and US project components. Presentations will take place at 3:30 p.m. and 5:15 p.m. followed by a question and answer session.

PUBLIC INFORMATION MEETINGS

Tuesday, June 20, 2023
3:00 p.m. - 7:00 p.m.
Mackenzie Hall
3277 Sandwich Street
Windsor

Wednesday, June 21, 2023
3:00 p.m. - 7:00 p.m.
El Kiosko Banquet Hall
7271 Dix Street
Detroit

Questions will be accepted in advance, during, and following the event.
To submit your questions in advance, email us no later than June 16,
2023, at info@wdbbridge.com.

New Photo Galleries

New photo galleries featuring the Canadian Port of Entry and US Port of Entry have been added to our website. Check out the new galleries [here](#).

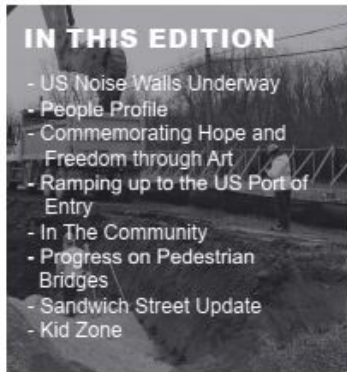

Community Newsletter Now Available

The May community newsletter is now available on the project website. Read about noise wall construction, commemorative art, community involvement and more [here](#).

The Gordie Howe International Bridge project between Windsor, Ontario and Detroit, Michigan will help move goods and people more efficiently at this important trade gateway. Managed by Windsor-Detroit Bridge Authority (WDBA) and working in collaboration with the State of Michigan, the project is being delivered through a public-private partnership (P3) which will see Bridging North America design, build, finance, operate and maintain the bridge.

US NOISE WALLS UNDERWAY

To help mitigate highway noise for Southwest Detroit residents living near I-75, and to meet requirements included in the Final Environmental Impact Statement, the project team is constructing noise walls along three sections of southbound I-75.

Noise walls will be located from Green Street to Waterman Street, Dragoon Street to Junction Street and Junction Street to Clark Street. They will be placed between the freeway and the service drive, and not affect sidewalks.

Construction started in January 2023 and all three are now underway. To construct a noise wall, crews install drill shafts approximately 20-to-70 feet into the ground to provide a foundation. Posts made of precast concrete are installed to support and secure the noise wall panels.

The precast concrete panels are approximately eight inches thick and will range from 10-to-20 feet in height depending on location. Noise wall colours alternate

Meet-A-Machine 2023

Visit the Gordie Howe International Bridge project team at Meet-a-Machine on Saturday, June 10, at the WFCU Centre in Windsor from 9:00 a.m. until 2:00 p.m. to get up close to the machines used on the project and pick up an activity bag.
