

The Gordie Howe International Bridge Request for Qualifications

Introductory Project Meetings and Industry Days

In support of the procurement process for the Gordie Howe International Bridge project, the Windsor-Detroit Bridge Authority (WDBA) will hold two introductory project meetings – one in Windsor, Ontario and one in Detroit, Michigan – for interested respondents. At the meetings, the WDBA will share the scope of the requirements outlined in the Request for Qualifications (RFQ).

The introductory project meetings will be followed by Industry Days. The Industry Days are presented in collaboration with the Heavy Construction Association of Windsor, the Windsor Construction Association, the Detroit Regional Chamber and the Michigan Infrastructure and Transportation Association. The events provide an opportunity for potential respondents to meet and network with local, regional and national contractors, suppliers and service providers and for local businesses to showcase themselves to potential private sector proponents on the Gordie Howe International Bridge project.

THE PROJECT

The publicly-owned Gordie Howe International Bridge project is comprised of four components – a bridge, a Canada port of entry, a U.S. port of entry, and an interchange to Interstate-75. It will accelerate the flow of goods and services and provide a much-needed crossing alternative at the busiest Canada-U.S. commercial border crossing – the Windsor, Ontario – Detroit, Michigan gateway.

PROJECT TIMELINES

The Request for Qualifications (RFQ) was released on July 20, 2015. The RFQ is available at www.merx.com. Interested respondents will have to download a copy of the RFQ from this electronic tendering site. Following a rigorous, fair, open and transparent evaluation process, teams short-listed by the RFQ process will be invited to respond to a Request for Proposals (RFP).

INTRODUCTORY PROJECT MEETING – WINDSOR
